

Here are a few options. More to come...

Thick Cupcakes

We will first trace the stencil cupcake shapes and paint the background on a 10x20" canvas panel board. Have refreshments while they dry. Come back and paint cupcakes any color you want. Using additives in the "icing" paint makes a thick, yummy texture.

Color Cats

We will first paint the two sides of these free standing illustration board cats any color you would like. Have refreshments while they dry. Come back and decorate cats with markers and paint.

Color Zebra

We will first paint the background on a 10x20" canvas panel board. Have refreshments while they dry. Come back and paint zebras any color you want. We will use puffy paint for some details.

Open Studio

We have a 16x20" canvas set up on an easel to paint whatever you want to. A gallery artist will be available to assist and hand out paint plates. We can take a quick tour of the gallery to get some ideas and motivation! The artists will leave with their art at the end of the party.
